DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, drawn to methods of eliciting an immune response to a bacterial pathogen comprising administering an incapacitated whole cell bacterial compositions wherein said bacterium is incapacitated by the expression from a recombinant promoter, classified in class 424, subclass 234.1.
- II. Claims 9-15, drawn to methods of vaccinating a subject against a disease caused by a bacterial pathogen comprising administering an incapacitated whole cell bacterial compositions wherein said bacterium is incapacitated by the expression from a recombinant promoter, classified in class 424, subclass 234.1.
- III. Claims 16-20, drawn to methods of eliciting an immune response to an antigen comprising administering an incapacitated whole cell bacterial compositions wherein said bacterium is incapacitated by the expression from a recombinant promoter, classified in class 424, subclass 234.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-III are each separate and distinct from each other as they are drawn to differing methods having different steps, different goals and leading to differing results.

Because these inventions are distinct for the reasons given above and the search required for various groups would not be coextensive in scope, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
